

Task: QA Automation Assessment

I have done the QA Automation Assessment using Cypress.

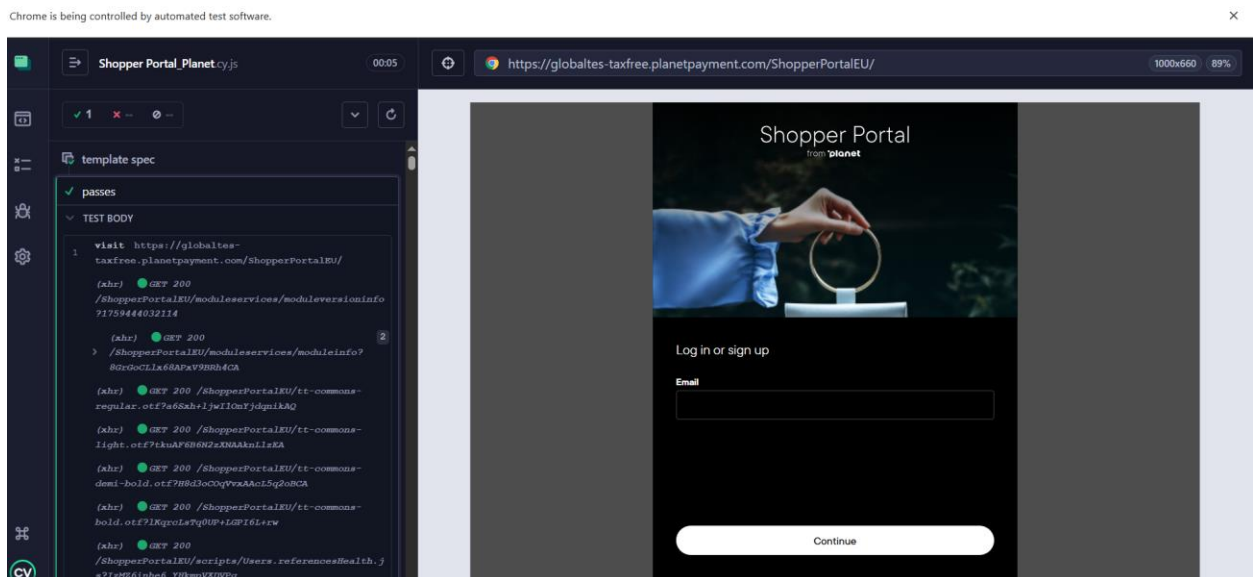

Test Case Scenario:

As a Planet customer, I want to create my profile in the Shopper Portal application.

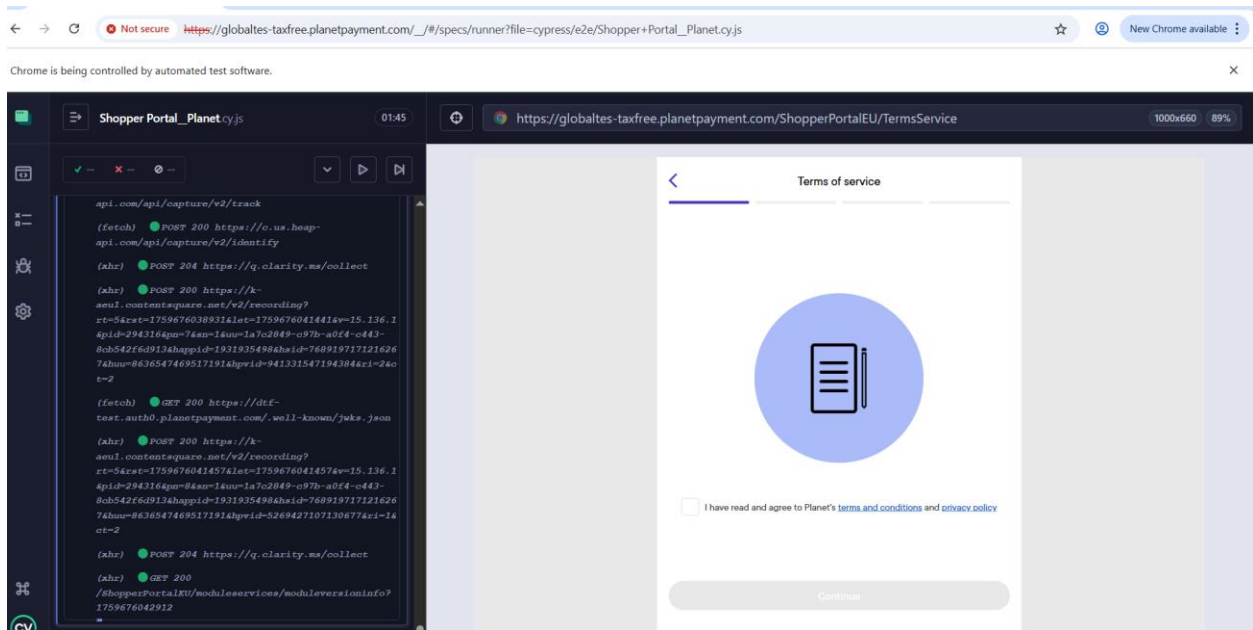

Screenshots:

Shopper Portal application profile creation

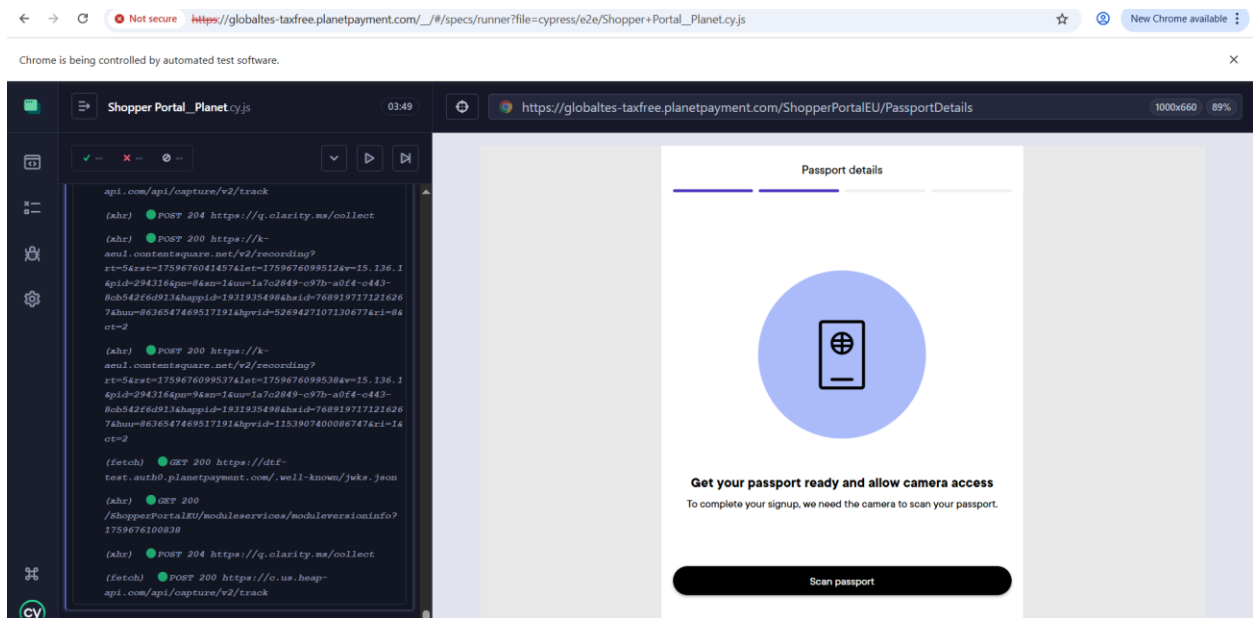

1. Navigate to <https://globaltes-taxfree.planetpayment.com/ShopperPortalEU/>

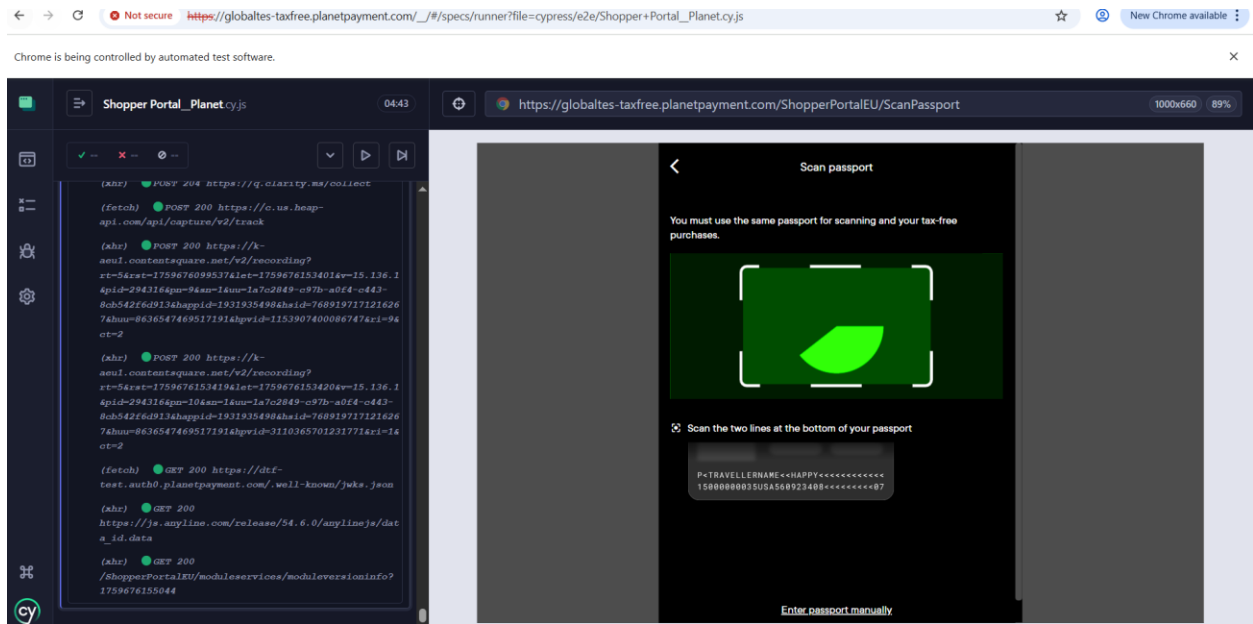

2. Enter a new valid email (you need to have access to it).

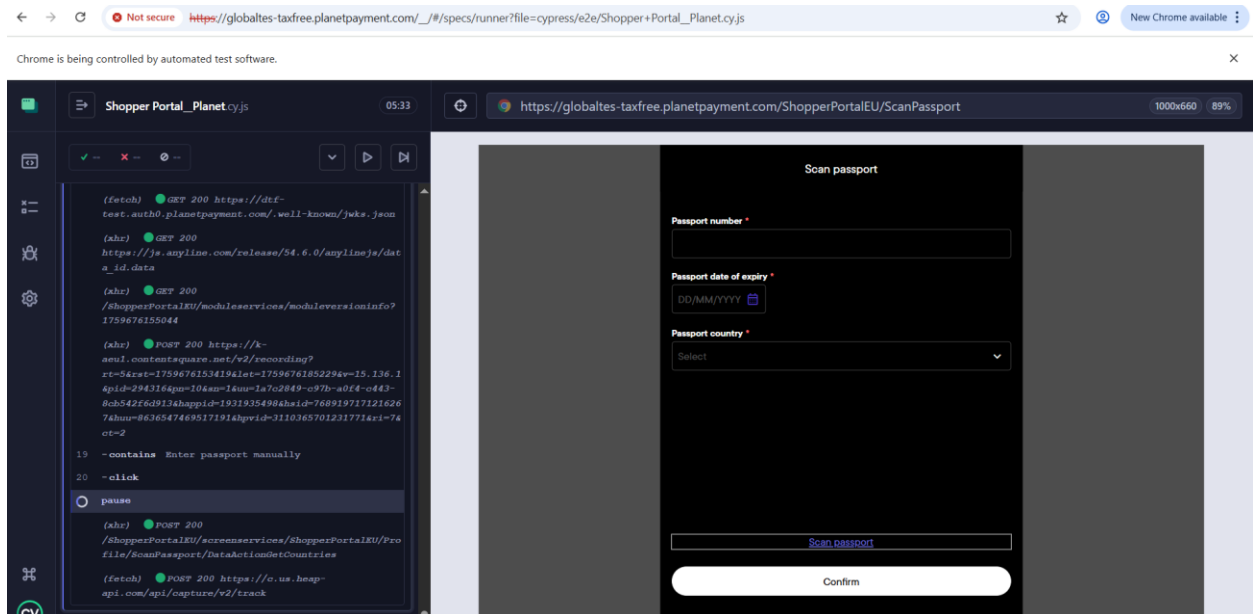

6. A page Get your passport ready will be displayed, click on Scan passport.

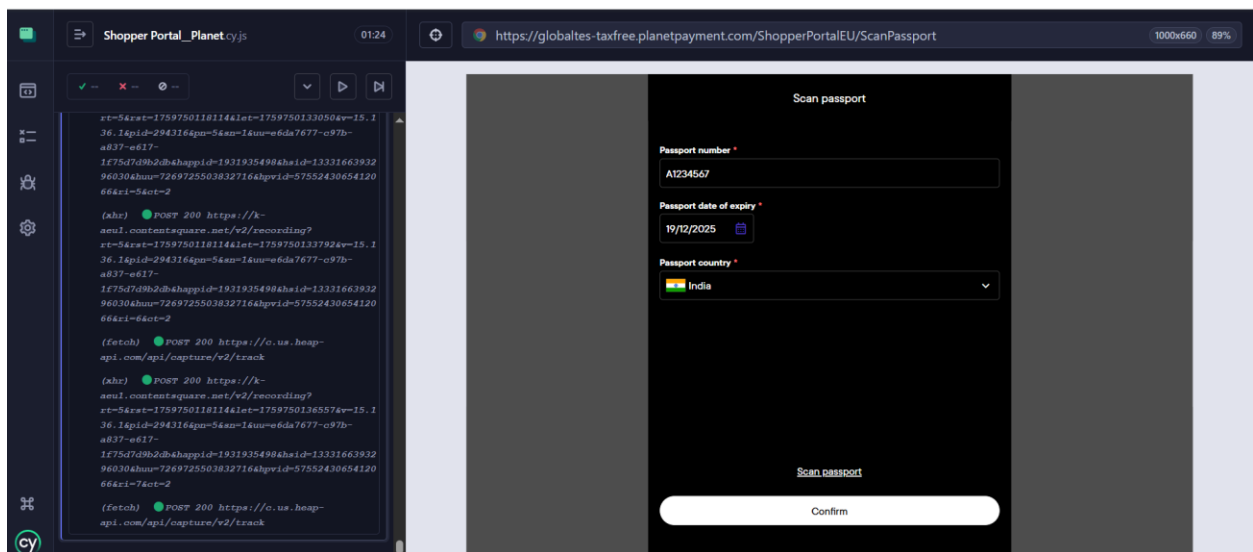

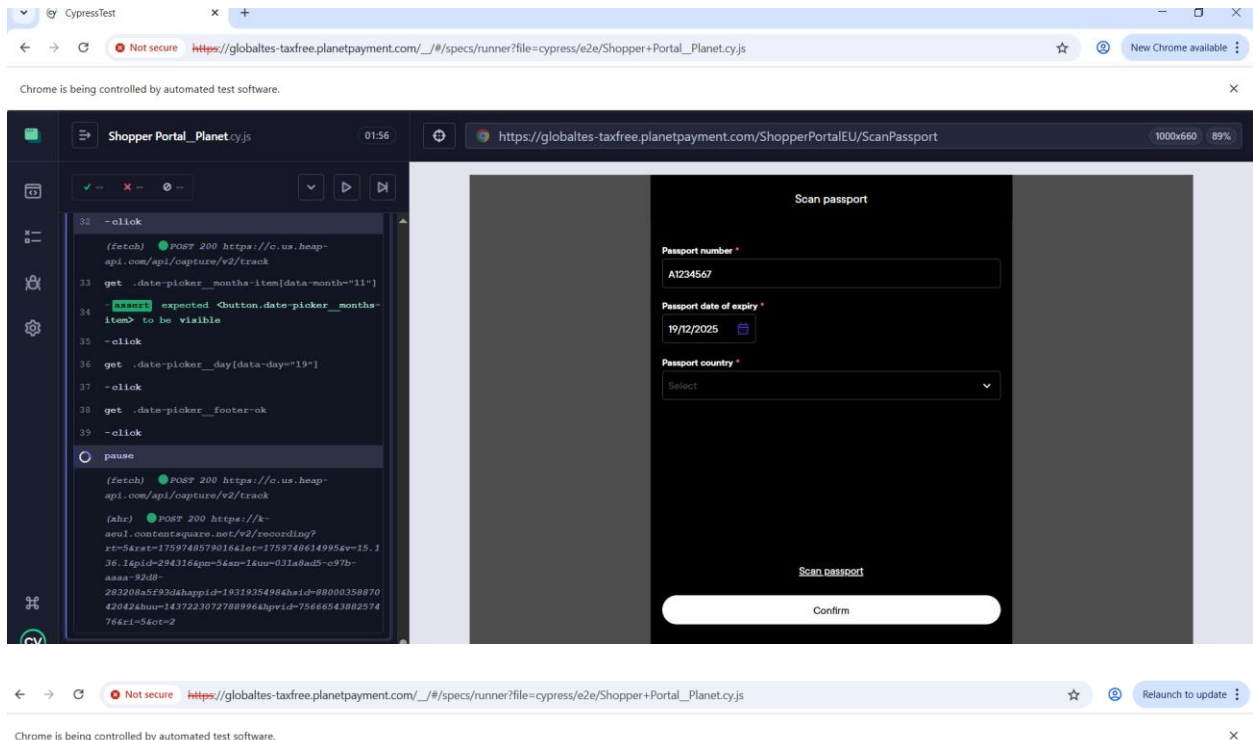

7. A page to scan will be displayed with a link to Enter passport manually. Click on the link.

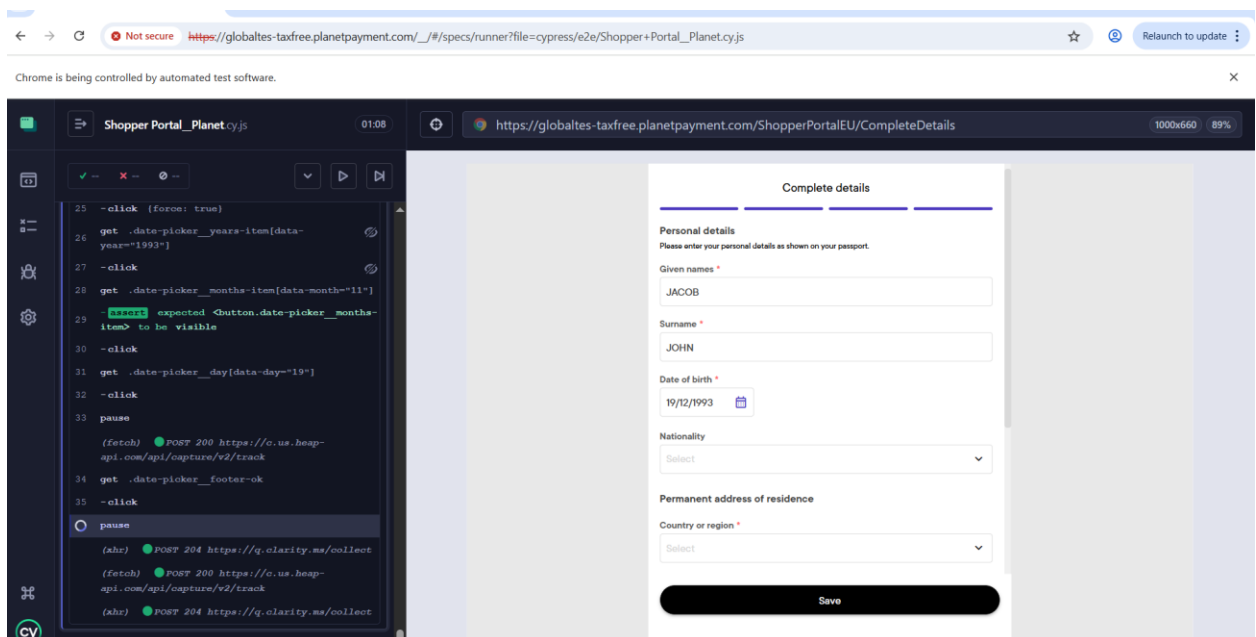

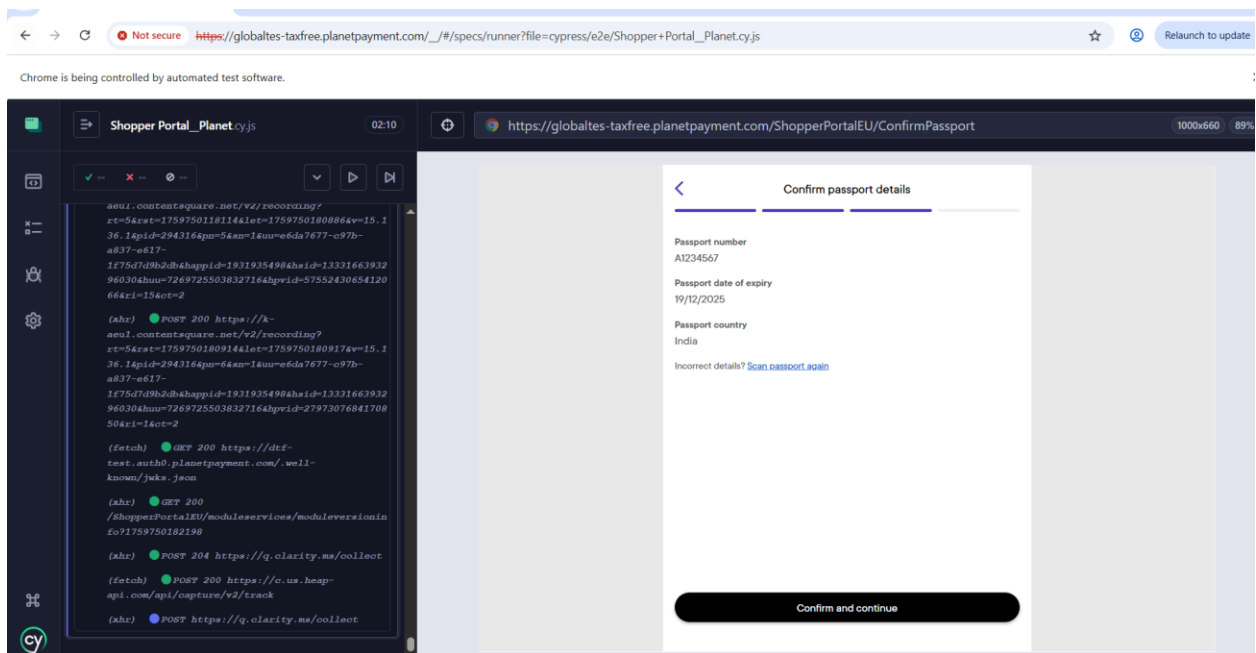

8. Enter Passport Number, passport expiry date and passport country (select a country outside of EU, like the USA, Brazil, India), click on Confirm.

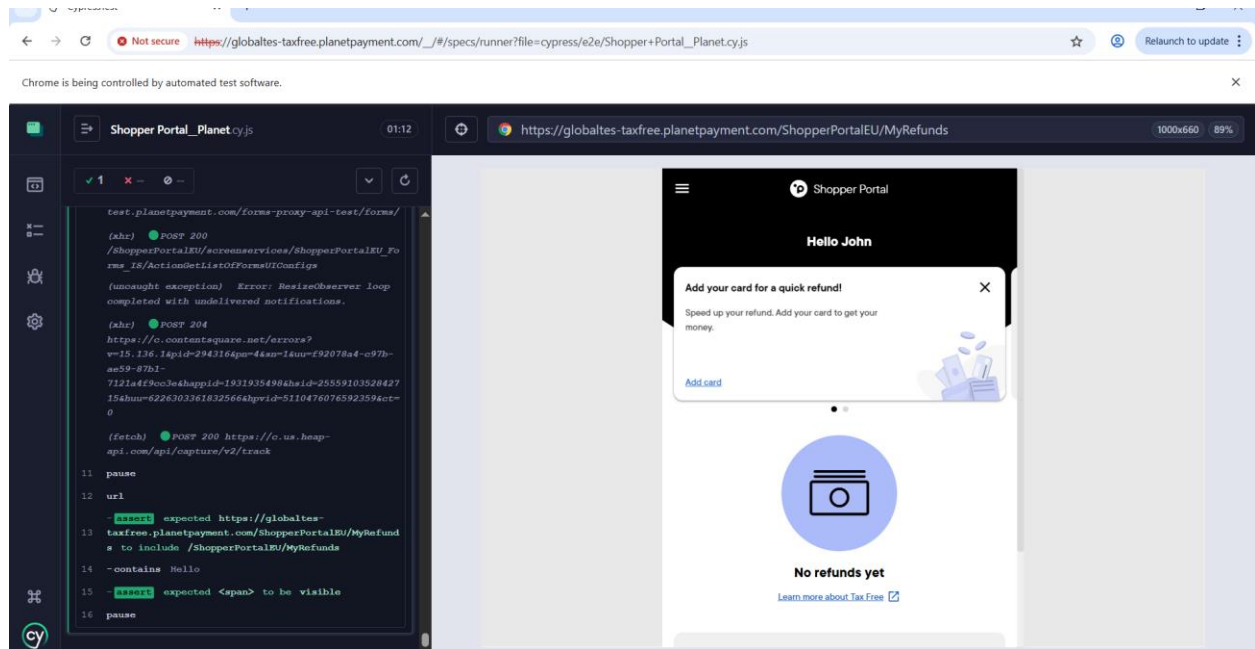

The Passport number, Passport date of expiry and Passport country is entered.

9. A Confirm passport details page is displayed with the details entered in step 8 and a link to Scan passport again. Click on Confirm and continue.

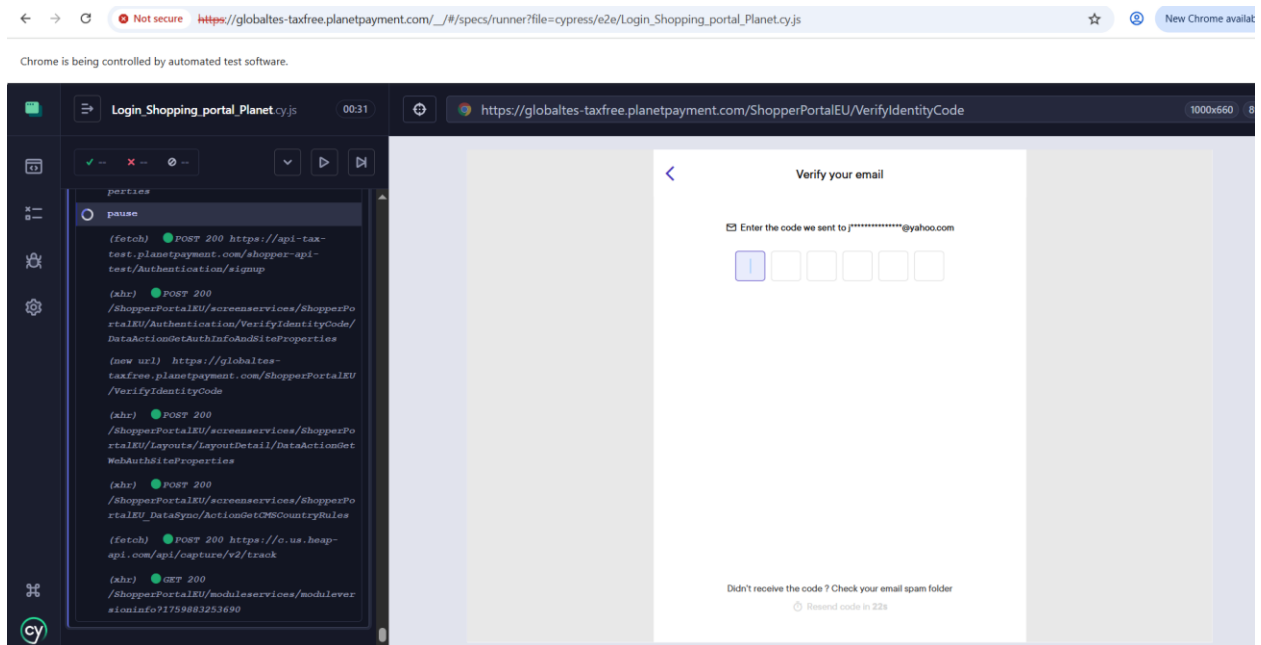

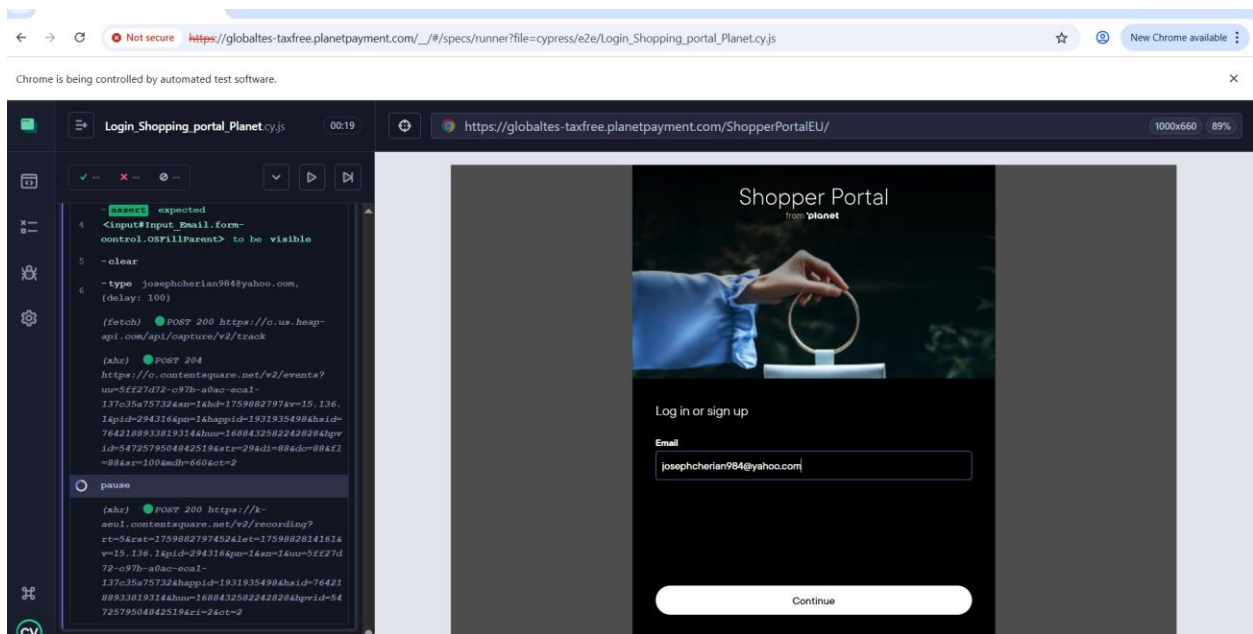

Login after creating the Profile:

Navigate to <https://globaltes-taxfree.planetpayment.com/ShopperPortalEU/>

1. Enter a new valid email (you need to have access to it).
2. Click on Continue.

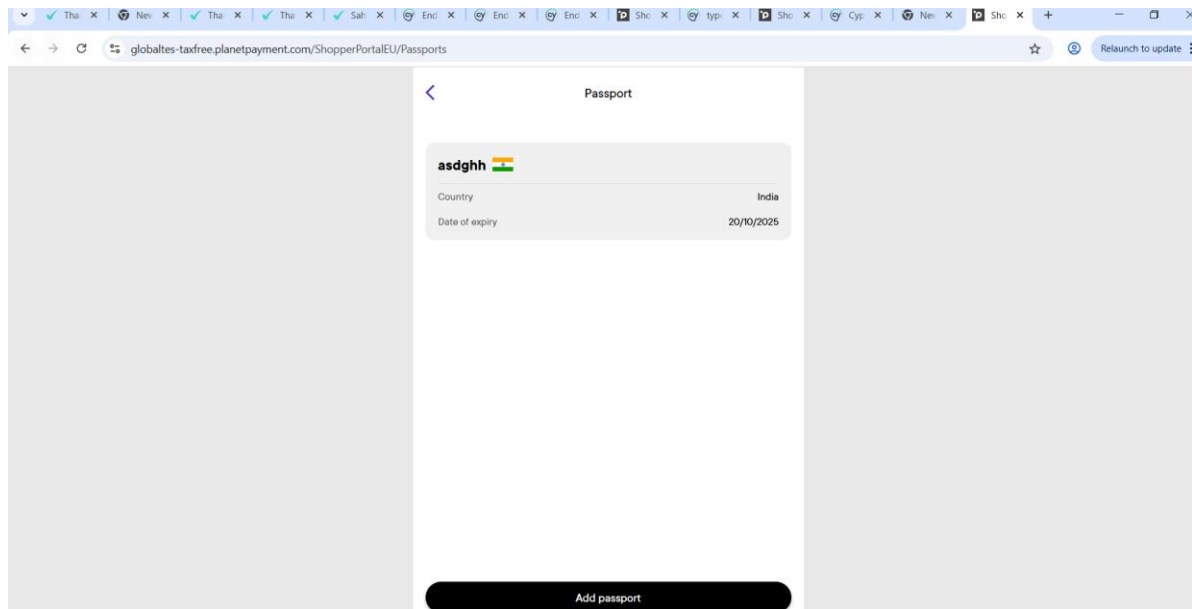

7. Enter passport number, expiry date, and passport country (select a country outside the EU) and click **Confirm**.
8. On the **Confirm Passport Details** page, verify the information and click **Confirm and Continue**.
9. Complete the required personal details: Given names, Surname, Date of Birth, Nationality, Country/Region, Address line 1, Postcode, City, State/Province, and Mobile Number. Click **Save**.
10. Verify that the message "**Profile details saved**" is displayed.
11. Ensure the main Shopper Portal page is displayed after profile creation.

Expected Results:

- The profile is successfully created and saved.
- Validation messages are displayed for mandatory fields if they are missing.
- User is redirected to the main page after successful profile creation.

Bugs found:

- If the user enters an incorrect Passport Number such as `asdghh` in the Passport Number text box an error message [Enter a valid passport number] is not displayed.

Postconditions:

- The user can access their profile in the Shopper Portal.
- The profile contains all entered personal and passport details.
